

Eversheds Saladžius

*A new direction for legal advice in Lithuania*

EVERSHEDS SALADŽIUS

## *Local lawyers with global reach*

Eversheds Saladžius is one of the leading law firms in Lithuania. We advise on all aspects of business law for clients who include local businesses, huge multinationals, public sector bodies and local and national governments.

As a member of Eversheds International, we can offer you the resources of one of the largest full service law firms in the world with over 4,000 people based in 40 offices across Europe, the Middle East, Africa and Asia.

Local lawyers with global experience, we are able to put teams together to meet any challenges you face when acting on the domestic or international stage. You will find our service to be of a consistently high quality wherever you might use us, with lawyers who genuinely work as one team across jurisdictions.

For those looking to invest in Lithuania, we are an ideal partner, providing local know-how and insight into how business is done in our country. With our help you make the most of the many opportunities available in this dynamic market.

*We cover the areas  
that matter to you*

When we talk about being a full service law firm we really mean it. We can advise you on every issue you might face using a combination of legal and sector knowledge. You will find us to be highly skilled professionals who understand your business, the way you work and the industry you work in.

*Lawyers with the skills  
and experience you need*

# Discover the benefits of working

## Nurturing our relationship with you

### A leading law firm for client relationships

We work with our clients rather than for them and look out for your interests at all times, recognising that your success is our success.

In recent times we have developed one of the most thorough and effective approaches to client relationship in the legal industry. We take the time to get to understand your business and ask for regular feedback which we then act upon. You will be advised in the way that works best for you. We can change to meet your specific needs.

You will find that our lawyers are always trying to improve the way they do things using the quality of our resources, expertise and experience to add even more value to the relationship we have with you.

### We actually listen to you

That's how we manage to give you exactly what you need, rather than what we think you might need. By understanding what you want to achieve we can put together the right team, with the right skills, and a plan that will help you achieve your goal in the most efficient manner.

All of our lawyers have commercial sense and you will get advice that takes into account your real world circumstances as well the legal aspects of a situation.

### We are innovative

Eversheds Saladžius is a law firm for modern clients. Our approach to costs, use of technology and project management approach all fit in with the way your organisation operates. All of our innovation is aimed at saving you time and costs and improving the quality of the service we provide.

## A perfect balance of experience, knowledge and skills

# with us

## *All the international experience you need in one place*

### **We are one global team**

We have the resources to co-ordinate your legal advice wherever you need it. Our lawyers regularly work with their colleagues across the world. We share the same way of working and a philosophy that puts you first.

You will be working with people who are familiar with international languages, cultures, regulations and ways of doing business. There is no better partner as you expand into new markets.

### **We are accountable**

We can offer you a single point of contact who will manage all of our work for you. That means you know who to talk to when you want to get something done. That person will take responsibility for building our relationship and ensure you get the service you deserve.

When it comes to billing we are completely transparent and base our costs on the value we add. We will use the approach that is best for you and we are flexible enough to adapt to most types of fee arrangements.

### **Our unique approach**

We provide genuine project management in everything we do for you. This approach allows you to stay in control of your budget, keep track of your legal work and enjoy the benefits of efficiencies in time and costs.

Before doing anything else, we will fully scope the work that needs to be done and agree a price and plan with you for doing it. We will then create the best team to carry out that work and manage it carefully throughout its lifecycle. You will be kept fully up-to-date on progress and, if circumstances change, we will not do anything without your consent.

At the end of the project we will ask you for feedback which will be used to provide an even better service in the future.

The result of this proven approach is outcomes that are more predictable, risks that are reduced and a service that is completely focused on getting you the right result.
